Activities of Digital System Technology Hub

About DS Tech Hub:

DS Tech Hub was founded in 2023 by a of Cameroonian refugee from technology and humanitarian background living in Adagom 1 Refugee settlement who recognized the importance of quality education and the potential of digital technology in addressing the challenges faced by refugees. We work in collaboration with organizations, local NGOs, and academic institutions to maximize our impact and reach. Our programs are designed to be scalable, adaptable, and culturally sensitive to meet the diverse needs of the refugee populations. We rely on a combination of funding sources including grants, corporate partnerships, individual donations, and fund-raising events.

DS Tech Hub is located in Adagom 1 Settlement Ogoja with high refugee populations. We currently support multiple languages to ensure inclusivity and accessibility, we actively seek partnerships with local and international organizations, tech companies, educational institutions, and government agencies to expand our reach and maximize the impact of our initiatives

DS Tech Hub, operational for 1 year and 6 months, has undertaken projects aimed at community development and skill enhancement. The organization's activities can be summarized as follows:

1) HIV and AIDS Awareness Campaign/Drug Abuse and Harm Reduction Project

February -July 2023):

DS Tech Hub in collaboration with Knowledge action Hub conducted a 6-month project focusing on raising awareness about HIV and AIDS, as well as addressing drug abuse and harm reduction within a refugee settlement. This initiative involved educational programs, workshops, and outreach efforts to promote health education and combat substance abuse among forcibly displaced persons.

Participants celebrating World AIDS Day

Celebrating world AIDS day and distributing condoms

A project Success and mental health walk

Training on sustainability and livelihood through Snail farming

Participants are trained on how to take snail farming as a means of livelihood

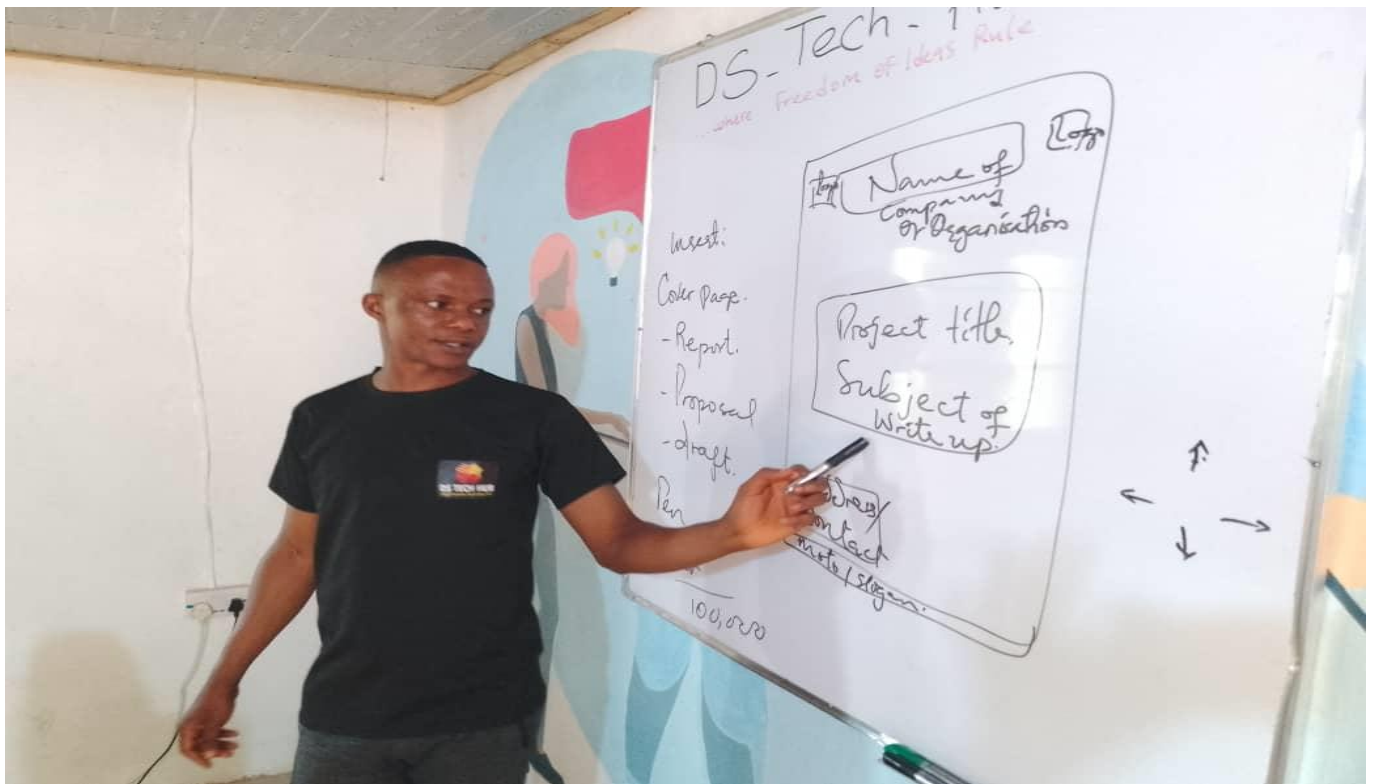

2) ICT for Livelihood Training Project (March 2023 - August 2023):

Following the first project, DS Tech Hub embarked on a 5-month initiative centred on ICT (Information and Communication Technology) training for livelihood development. This project aimed to equip individuals with essential digital skills to enhance their employability and eco

3) Education and Skills Training Support for Tertiary Students Project (September 2023 - April 2024):

Currently ongoing is a project focused on easing the strain on education and skills training for tertiary education students. This endeavour involve providing academic support, mentorship, career guidance, or resources to help tertiary students navigate their educational journey more effectively.

Seminar with students in tertiary education to identify their challenges
